mcaConnect, LLC Counted Among Top Finalists for the 2010 Microsoft Partner Awards in the Category Microsoft Dynamics Manufacturing Partner of the Year

Sparta, New Jersey, United States — June 23, 2010 — Today, mcaConnect, LLC announced it has been selected as a finalist for the Microsoft Partner Awards in the Microsoft Dynamics Manufacturing Partner of the Year award category.

“We are pleased that Microsoft has recognized mcaConnect as a 2010 Partner Award finalist as a result of our AX4Lean solution being adopted by our customers,” Claude Watson, President of mcaConnect, said. “Combining our expert services with the powerful technology of Microsoft Dynamics™ AX 2009 allowed us to tailor a solution that has provided significant ROI. We are grateful to Microsoft for providing an incredible foundation with Dynamics AX which allows us to build solutions like AX4Lean that help our mutual customers meet or hopefully exceed their business goals”.

Awards will be presented in a number of categories, with winners and finalists chosen from a pool of almost 3,000 entrants worldwide. The Microsoft Dynamics Manufacturing Partner of the Year Award honors partners who have exhibited excellence in providing innovative and unique solutions based on Microsoft Dynamics to customers in the manufacturing industry. This award recognizes mcaConnect, LLC for demonstrating industry knowledge and expertise, as well as consistent, high-quality, predictable service to Microsoft Dynamics customers. They have also demonstrated business leadership and success through strong growth in new customer additions and revenue.

“Congratulations to the 2010 Partner Award finalists for delivering such creative and superior Microsoft solutions and services,” said Allison Watson, Corporate Vice President, Worldwide Partner Group, Microsoft Corp. “It’s incredible to see the level of expertise our partners continue to exhibit as they create and deliver innovative solutions and services to grow their businesses, meet customer needs, and drive down costs.”
